

SENIOR MINING ENGINEER

Rubicon Minerals Corporation is a well-funded, top tier, gold exploration company with major land holdings in Red Lake, Ontario, Alaska and Nevada. Rubicon is currently seeking a Senior Mine Engineer to join our team in Red Lake, Ontario. The successful candidate will be given the responsibility to lead, and manage the site mining activities at the Phoenix Gold Project.

Experience in project management and mine design will be an asset, as well as a working knowledge of various mining software. Must have a strong understanding of underground operational practices and provide real-time input to the mine design.

The successful candidate must possess a minimum B.Sc. in Mining Engineering, must be a registered Professional Engineer of Ontario and will have a minimum of 10 years mining experience. The candidate must be a “hands on” team leader with a proven track record. Strong communication and planning skills are essential.

Rubicon Minerals offers generous wages and an attractive incentive package. Remuneration will be commensurate with experience.

We gratefully acknowledge all applicants but only those selected for an interview will be contacted.

Please submit your resume to email: rubicon@rubiconminerals.com
