

UNDERGROUND GEOLOGIST

Rubicon Minerals Corporation is a well-funded, leading, gold exploration company with major land holdings in Red Lake, Ontario, Alaska and Nevada. Rubicon is currently seeking a Senior Underground Exploration Geologist to join our team in Red Lake, Ontario. The successful candidate will work closely with both exploration and operations and will be responsible for ongoing underground mapping and sampling, provide input to zone interpretations and core logging as needed.

Experience in high-grade Archean gold exploration will be an asset as well as a working knowledge of various modeling software. The applicant must have a strong understanding underground mapping and best practices.

The successful candidate must possess a minimum B.Sc. in Geology, must be a registered Professional Geologist in North America (or be eligible for registration) and will have a minimum of 5 years experience working as a geologist in a mine. The candidate must be a “hands on” team player with a proven track record. Strong communication and planning skills are essential.

Rubicon Minerals offers competitive wages and an attractive incentive package. Remuneration will be commensurate with experience.

Note: Applicants must be legally authorized to work in Canada.

We gratefully acknowledge all applicants but only those selected for an interview will be contacted.

Please submit your resume in MS Word format to email: careers@rubiconminerals.com
