

GEOLOGICAL CORE LOGGER – RED LAKE, ONTARIO

Rubicon Minerals Corporation is a well-funded, top tier, gold exploration company with major land holdings in Red Lake, Ontario, Alaska and Nevada. Rubicon is currently seeking an experienced core logger to join the exploration team for the Ontario operations. The successful candidate's responsibilities will include, but not be limited to the following:

- Drill core logging and sampling
- Drill project management
- Geological interpretations
- QA/QC procedure compliance
- Exploration data capture, validation and management

Experience in gold exploration will be an asset, as well as a working knowledge of Geosoft Target, ArcGIS, and Microsoft Office. The successful candidate must possess a B.Sc. in Geology, must be eligible for registration as a Professional Geologist in Canada and must be physically fit. The candidate must be capable of working independently as well as within a team environment. Strong interpersonal and communications skills are essential.

Rubicon Minerals offers competitive wages and an attractive incentive package. Remuneration will be commensurate with experience.

Note: Applicants must be legally authorized to work in Canada, including proper documentation, i.e. permit or work Visa.

We gratefully acknowledge all applicants but only those selected for an interview will be contacted.

Please submit your resume to email: rubicon@rubiconminerals.com
